

ABANGAREZ - American - SS

The master stated that Thomas Boyd, 2nd Assistant Engineer, refused to take his station in the boiler room at fire drill. The master does not believe that Boyd is disloyal but thinks that he is just "Too smart". This is bad conduct in an officer who should set an example for the ~~EM~~ members of the crew. Ref. Excerpt for Boarding Report, 8ND, 5/242 Memo for files, 5/12/42.

See cards of Fidelo Azcuy and also Joseph Davis.
