

Paraphrase of telegram received from the American Consul
at Goteborg, Sweden, dated October 13, 9 a.m.

The steamship Drottningholm sailed for New York
this morning (October 13) carrying 692 passengers of
whom 292 were American citizens. 850 passengers had
been counted on by the steamship officials and the
difference in the number booked would seem to indicate
that repatriation of citizens wishing to return to the
United States is practically completed.
