

EXCERPT FROM JICAME BOARDING REPORT, SS EDWARD LIVINGSTON (U.S.), 7 JANUARY 1944.

Lt.(jg) J. F. Kee, Armed C. O. of subject vessel, reported that fresh water on board is contaminated with oil. Master states this was due to using fresh water pumps for pumping bilges in error. Crew and gun crew are bitterly complaining and difficulty should be corrected if at all possible. ALUSLO Basra being requested to investigate if condition can be cleared there as no facilities available in Aden.

Dissemination: Coast Guard.

Cognizant: WSA.
